

# Videxio Presentation

Netværksmøde 30. Maj

**IT'S BETTER TO BE SEEN**

# Working together in teams

73%

Millenials are missing  
collaboration tools

In the last decade our digital tools has not helped  
improve innovation and collaboration

# Workforce of the future

---

Machine learning and big data replace the desk job – Otherwise outsourced

What is left is the unstructured work which is fast paced and group based

Outsourcing and machine learning demands tools which include external members in the group

Analog documents and manual workflows undermine the benefits

# Machines takes over...

Prepare young people for the jobs that “are” or “might be” – not the jobs that “were”

#### Jobs that didn't exist 10 years ago

- Digital Marketer
- Social Media Manager
- SEO consultant
- App Designers & Developers
- Cloud Services Specialist
- Big Data Analyst
- Zumba teacher
- Offshore windfarm engineer

#### Jobs of the future?

- 3D/4D Designers
- Nano engineers
- Risk Profilers
- Cyborg Engineers
- Wisdom Archivists
- Longevity Consultants
- Crime Predictors
- Troubleshooters
- Component repurposers

Kunne vi forudsige de jobs og industrier der er kommet de sidste 10 år?

- Customer Experience Experts (online shopping)
- Remote Controlled Vehicle Operators (droner og ubemandede køretøjer)
- Specialised Big Data Analysts
- Social media managers
- Youtube content creator
- Mobile app developers
- Driverless car engineer
- User experience designer
- Cloud computing specialist
- SEO specialist

# Digital workplace in the cloud

---

- Work on any device and anywhere
- Work 100 % digital
  - In order to work in an agile environment we must be able to access documents and systems on a digital platform
- Collaboration between HR, IT and Facility
  - Creating both a physical and digital workplace requires input and knowledge from several parts of the organization
- Content in the meeting from the cloud
  - Wireless and cabled screensharing has always been a challenge. The rise of videocontent is adding pressure. The need for importing content to the meeting room is key

# HQ – The physical workplace

“If a building doesn’t encourage collaboration, you’ll lose a lot of innovation and the magic that’s sparked by serendipity.” — Steve Jobs

Improves the tools we use and guides our daily tasks

Increase presence

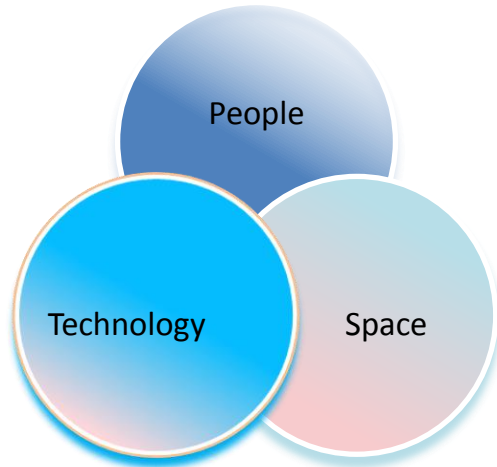

Finding a colleague, desk or a room for a task should be easy and fast

# HQ – The physical workplace

---

Remember that a headquarter should  
just be another place to solve tasks..

Bring together

The challenge is to maintain team spirit, share stories and information informally

# Downfall of the static product and service

Our way of working changes faster than the product's lifespan

Therefore we choose partners based on their vision and long-time strategy

This ensures that the products and services are aligned in a fast-changing world

Roadmap is more important  
than the product specs

# Machine Learning

Collaboration

# Big Data

Improve your every day as a  
Team

Team

Employee

Leader

Improve decision making process

How are you today?

Improve Headquarter

Cantina

Meeting space

Desks

Service and support

# Bring Your Own Device 2.0

People want the functionality from the private space  
– Not the device or software

Siri

# Evolution of the user experience

Reinventing the light bulb..

User experience

Guide knows what you want and does it  
 Guide suggest what you may want  
 Ask guide to do something  
 Press button and workflow starts
